Ajman immigration

A complete renovation of the public areas at the Ajman Immigration, adds just another name to Décor Center's list of satisfied clients.

A Semi – classical design in concept. The existing interior was renovated, successfully transferring the concept from Vision to Reality. A decorative wall cladding, counters, columns, molding and dados were made in High Pressure Lamination PVC finish with CNC & Laser engraving. Consistency in the joinery is carried over to the display counters with the same concept. Lush soft seating with elegant decorative lights fixtures, adds the much-required finishing touch to the overall interiors.

Fujairah immigration

A complete renovation of the public areas at the Fujairah Immigration, adds just another name to Décor Center's list of satisfied clients. A Semi – classical design in concept. The existing interior was renovated, successfully transferring the concept from Vision to Reality. A decorative wall cladding, counters, columns, molding and dados were made in High Pressure Lamination PVC finish with CNC & Laser engraving.

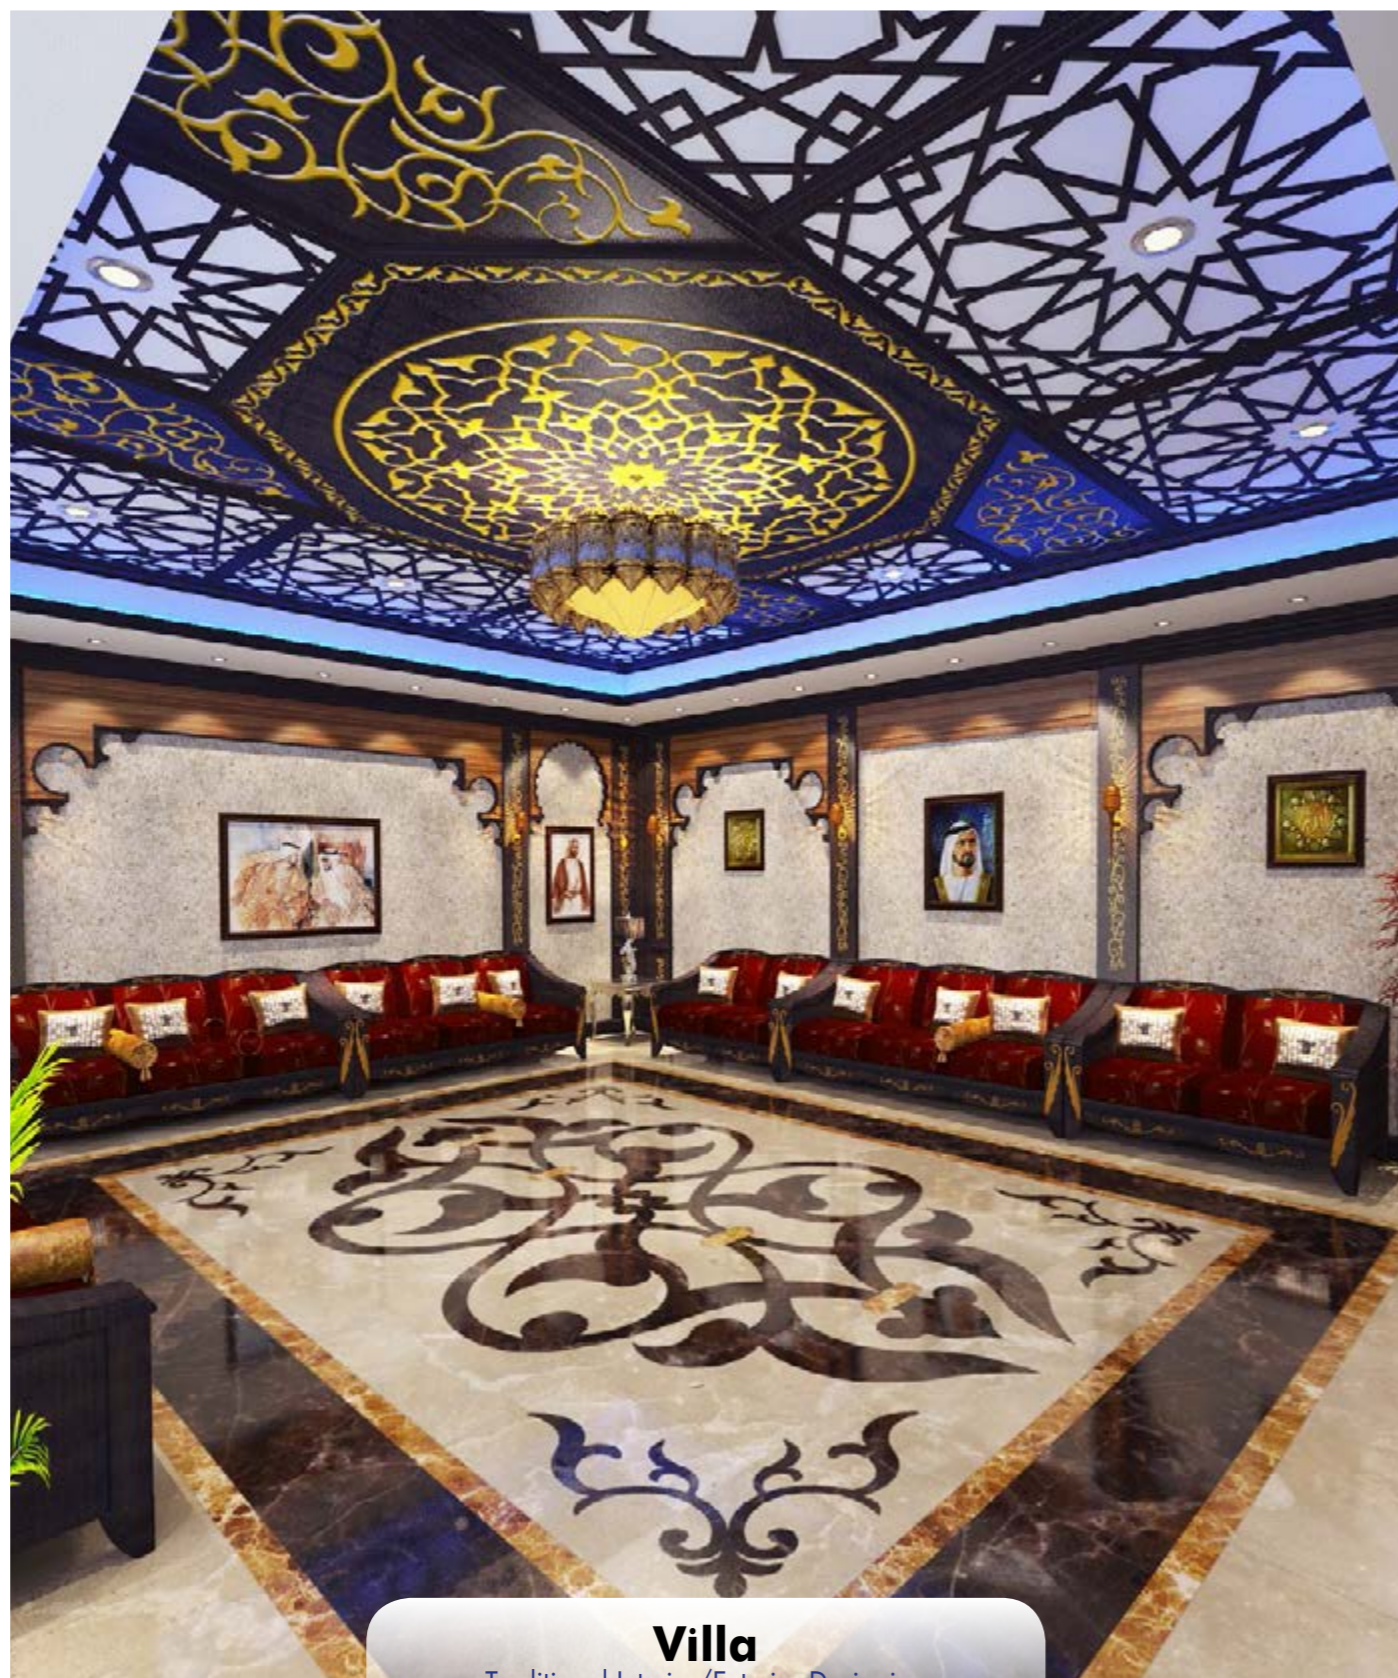

Consistency in the joinery is carried over to the display counters with the same concept. Lush soft seating with elegant decorative lights fixtures, adds the much-required finishing touch to the overall interiors.
